O R D E R

On December 15, 1994, Meade County Water District ("District") applied to the Commission for a Certificate of Public Convenience and Necessity, authorizing the District to construct an extension of its waterworks distribution system and for approval of the proposed plan of financing of said project. In its Supplement to Application filed January 19, 1995, the District requested a deviation from the requirements of 807 KAR 5:001, Section 6(9), and 807 KAR 5:001, Section 11(1)(a) and (2)(b).

807 KAR 5:001, Section 6(9), requires a detailed income statement and balance sheet. The District requests a deviation from this requirement because its 1994 audit has not yet been made.

Section 11(1)(a) requires a description of applicant's property and statement of original cost of applicant's property and the cost to the applicant, if different. Section 11(2)(b) requires copies of all trust deeds or mortgages. The District requests that

it not be required to file all easements under this section due to their voluminous nature.

Having reviewed the filing and being otherwise sufficiently advised, the Commission finds that the information filed therein is sufficient to enable the Commission to review adequately the District's filing. Therefore, its request for a deviation from 807 KAR 5:001, Section 6(9), should be granted. The District needs no deviation from 807 KAR 5:001, Section 11(1)(a) and (2)(b), as this section does not require easements to be filed.

IT IS THEREFORE ORDERED that:

1. The District's request for a deviation from the requirements of 807 KAR 5:001, Section 6(9), is hereby granted.

2. The District is not required to file easements with the Commission in this case.

Done at Frankfort, Kentucky, this 17th day of March, 1995.
